## Patria's Bank Accounts - in the Czech Republic

**If you are sending payments from abroad, please use the IBAN code instead of the normal account numbers.**

To deposit into the **Long-term investment product "DIP"** (including the employer's contribution), it is necessary to enter the **variable symbol**, which you can **find in the DIP tab** after logging into [webtrader.patria.cz/en](http://webtrader.patria.cz/en).

For payments to Patria's bank accounts, the **variable symbol** must be **the number of your Patria Finance brokerage account** or **the customer's birth number/IČO(CIN)**. Variable symbol, for deposits in a currency other than CZK, should be entered in the "**purpose of payment**" and "**note to recipient**" fields. Otherwise, the deposit may not be credited correctly.
