Patria Finance a.s.

1. SCOPE AND DEFINITIONS

Patria, member of KBC Group, provides investment services and activities in relation to various financial instruments. Patria is required to maintain and operate effective organizational and administrative arrangements, including a conflict of interest policy, with a view to taking all reasonable steps designed to prevent conflicts of interest from adversely affecting the interests of its clients. In addition, Patria has established a proper conflict of interest policy appropriate to the scale and complexity of its own services and activities. Finally various other arrangements are in place within Patria addressing situations in which a conflict of interest might arise such as the rules relating to personal account dealing (which include requirements for dealings to be conducted through an account with Patria and to be preapproved with Patria's compliance department) and the adopted KBC standards on the acceptance of presents by employees.
